```
graph LR; A[problem_operators.Mutation Operator.generatedNewState] --> D[problem.definition.Codification.get AleatoryKey]; B[evolutionary_algorithms.complement.AIOMutation.mutation] --> D; C[evolutionary_algorithms.complement.OnePointMutation.mutation] --> D; E[evolutionary_algorithms.complement.TowPointsMutation.mutation] --> D;
```

The diagram illustrates a flow of information or dependencies. On the left, there are four rectangular boxes, each containing a text string. On the right, there is a single, larger rectangular box. Four blue arrows originate from the right side of each box on the left and point towards the left side of the box on the right. The box on the right has a gray background, while the others are white with black borders. The text in the boxes appears to be code or identifiers related to evolutionary algorithms and problem definitions.
